Professional Summary

A self-taught Full-Stack Developer with five years of experience in developing web applications. My passion lies in creating user- friendly and efficient web solutions.

I pride myself on writing clean, maintainable, and DRY code, with a strong emphasis on readability, isolation, and re-usability. I have a solid understanding of Object-Oriented Programming (OOP) and am well-versed in various other programming languages and frameworks.

Experience

Mar 2023 - Jun 2024

Full Stack Engineer

Metapic | Remote

- Integrated APIs (Google Analytics, Awin, Mailchimp, CJ) and payment gateways (Stripe).
- Enhanced the admin dashboard with new features and UX improvements.
